

# EFFORTLESS DATA INTAKE AND REPORTING

## end to end integrated solution

### CRM, case management, client outcomes and government reporting integrated solution

CommunityCI seamlessly integrates with Community Data Solution CRM to simplify client management and outcomes intake. Manage your client interactions and outcomes from a single application. Build the outcomes framework that best meets your needs. Export the data to SCORE or RBA scales using scale translations & access many case outputs and outcomes reports powered by CommunityBI reporting server.
